

Fairfield Community Primary School Statement of Aims

‘Learning the Fairfield Way’

At Fairfield Community Primary School we endeavour to make learning interesting and engaging, purposeful and fun. In this way we hope to nurture the children’s self esteem and confidence so that progress and attainment in all areas of the curriculum will follow.

At Fairfield Primary School we believe in community. Over the last 40+ years the school has established strong links with the local community and we pride ourselves on our unique identity.

We aim to provide:

- A safe, secure, happy and stimulating learning environment. The school is committed to safeguarding and promoting the welfare of children and expects all staff and volunteers to share this commitment.
- A broad and balance curriculum. At Fairfield we aim to make our curriculum meaningful, interesting and fun, including real experiences for the children.
- Opportunities for all pupils to excel. We believe that learning should be linked to the children’s personal interests and individual learning styles.
- Play, games and active learning to support their education. This is especially important in the early years at school, Foundation Stage and Year 1, but we believe that active learning is valid for all ages.
- Parental support and to work together with parents for the benefit of the children. Through our Leading Parent Partnership work we believe that we can continue to build on the good relationships which already exists. To achieve this we try to involve parents in their children’s education in a variety of ways.
- Every child with the opportunity to experience success and to develop self-esteem. So we provide children in addition to the curriculum opportunities for children to develop skills, to enjoy their learning and to become part of the community.
